

**SR 520
West Lake Sammamish Parkway to SR 202
King County**

**SEPA Addendum to the Final
Environmental Impact Statement**

By the

Washington State Department of Transportation

The Washington State Department of Transportation has determined in accordance with WAC 197-11-600(4)(c) and WAC 197-11-625 that the proposed project will have no significant adverse effects to the environment.

This finding is based on the SEPA Addendum to the 1992 Final Environmental Impact Statement (EIS) SR 520, *Old SR 901 Interchange to SR 202* and other documents and attachments as itemized in this Addendum. These documents have been independently evaluated by WSDOT and determined to accurately discuss the project purpose, need, environmental effects of the proposed project, as well as appropriate mitigation measures. It provides sufficient evidence and analysis for determining that a supplement to the EIS is not required.

WSDOT takes full responsibility for the accuracy, scope, and content of the Addendum.
